KING TONY

Enjoy your work

BEST OF

2026

Sponsor & Partnership

Racing pilots, passionate about mechanics, have chosen the KING TONY® brand to help them on a daily basis and make their repairs a real pleasure.

**Charlie Herbst
HC RACING 86**

Kevin Rohrscheidt - KEEPPONRACING

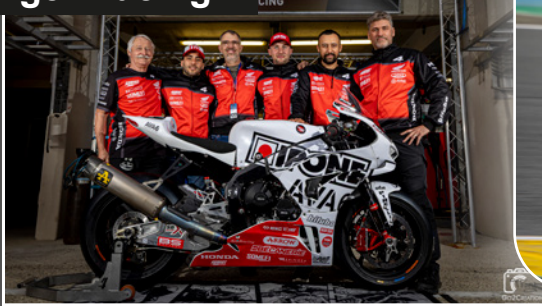

KING TONY® is developing its international brand image. To strengthen our position in the market, we are increasing the visibility of the brand through motorsport.

Brand vision

Since 1984, KING TONY® has been committed to providing professional tools. We have always focused on a quality offer, ensuring that this quality meets the work requirements of our customers. Completing a mission in a professional manner is the goal of every mechanic, but completing it easily and perfectly offers the feeling of an even greater personal accomplishment. Thus, every mechanic can really enjoy his work. As a result, we aim to let every mechanic know that when he uses KING TONY® professional tools, he can quickly, easily and perfectly finish his work. He can feel confident and appreciate what he is doing. To achieve this goal, we will continue to provide easy-to-use, manageable, time-saving tools. Our vision for the future is to tell every mechanic who uses KING TONY® tools: «Enjoy your work». It's the very meaning of using good tools to do a good job and feel a real pleasure when working. Why not fully find your pleasure in your doing your job? Use the professional KING TONY® tools and start living the experience.

• Quality • Innovation • Health • Enjoyment

Patented design

Our patented color identification system is a clever innovation in the history of tooling. To facilitate tool recognition, KING TONY® has created two colors: BLUE for metric units, RED for imperials.

Precise dimensions

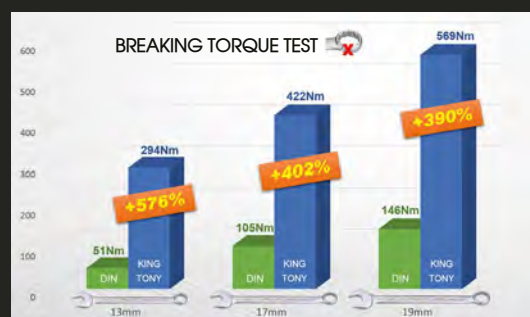

Aware of the importance of having a precise dimension for a professional, KING TONY® uses all its know-how to minimize the tolerance of each tool.

1062 SERIES I-BEAM technology

Innovations

Every year sees the release of many improved tools. KING TONY® selects the most useful ideas and ingenious functions to develop new products in the respect of an exceptional quality and a controlled cost. Every innovation is designed, above all, for the comfort of users.

Test of the breaking torque of KING TONY®'s 13, 17 and 19 mm combination wrenches, compared to DIN 3113. Produced by CETIM (independent certification organization).

The required quality

Only the best tools come out of our factories. Indeed, KING TONY® imposes its own standard: at least 30% above the DIN standard for hand tools, and 50% minimum for impact tools.

SUMMARY

Hand sockets	6
Impact sockets	18
Pneumatic Impact Wrenches	20
Wrenches	24
Pliers	31
Screwdrivers, L-wrenches and bits	36
Hammers and striking tools	44
Pipe tools	48
Tools for electronics and electricity	50
1000 V insulated tools	57
 PENTA Electrical safety equipment	62
Workshop tools	66
Lighting	72
Storage and tool sets	76
Torque control	118
Pullers	122
Automotive tools	130
Hydraulic - Lifting	150

Branding to Target Users

The KING TONY® brand has specialized in professional tools and has become «the expert in tools with the best service». In addition to that, our marketing strategy is very effective. It is based on always keeping in mind the concept of «customer priority» .

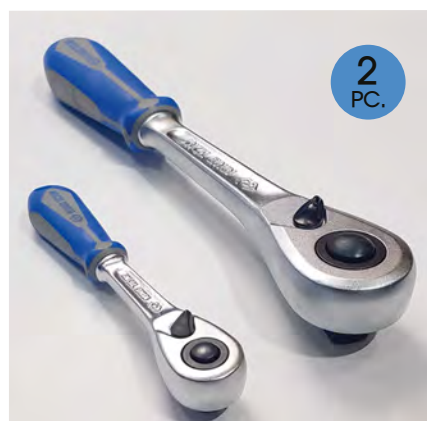

RATCHETS AND ARTICULATED HANDLES

TAG780VIFE

217 €

LV VOLTAGE DETECTOR

In the context of consignment, TAG780V enables checking the absence of voltage. This device provides additional features as phase search, continuity test, voltage level...)

Audible alarm indicating the presence of voltage with a different tone according to voltage level (discontinuous tone up to 230V and continuous tone above 400V).

Polarity display (-/+)

Integrated self-test.

Phase search in single-pole mode (use of one or the other key points).

Front light.

Unique bright LED display can be read in sunlight.

Ultra flexible cord (no memory effect).

A revolutionary IP2X system (retractable tipsleeve): "pull and hold" grip at back of device.

TECHNICAL INFORMATION

DC Voltage Test	12, 24, 50, 127, 230, 400, 690, 1000 V
AC Voltage Test	12, 24, 50, 127, 230, 400, 690, 1000 V
Frequency range	15 - 60 Hz
Continuity test	<80 Ω
Approval	IEC 61243-3, CAT.IV 1 000 V, IP2X, IP65

INSULATING RESCUE STICK

Stick for rescuing an injured technician (electrocution, dizziness...), working on category 1, 2 and 3 substations. Designed to grab an injured person by the waist and bring them back to a safe area.

Test voltage over 300 mm: 100 kV.

Hook : steel tube 18 x 1,5 cm.

Body stick 45 kV with hook and without protection guard.

Total length without hook (m) : 1.47.

Supplied with 2 supports and a hook.

TS20

TS21

INSULATING BAG FOR CONNECTORS

Used on overhead power lines and inside installations.

Placed under a fixed connector at the free end of a conductor wire, this insulating bag is used to prevent accidental contact between the connector and a conducting component carrying a different potential.

For working by contact, by pulling the bag grip ring or by tilting and sliding the bag over the connector's length until it is clear.

Made of transparent polyvinyl.

Velcro fastening.

SPIRIT LEVELS

- Made of high-quality aluminum, this level offers both lightness and robustness.
- Application environments: construction industry, woodworking, plumbing and electrical work, and automation equipment.
- With an accuracy of 0.5 mm/m (0.029°), it guarantees accurate measurements on all your sites.
- Its shock-absorbing tips ensure excellent impact resistance and extend the tool's lifespan.
- Thanks to its magnetic base, it can be used hands-free on metal surfaces for more comfort and efficiency.
- Its integrated handle offers high practicality during use.
- Easy to hang, it always remains within reach and simple to find.
